

**All-in-One, Easy-to-Use,
Multi-Purpose Bid Delivery**

It's like having a multi-purpose tool—providing you with powerful features that help guarantee the most competitive bids possible!

PRIVATE PLANROOM PLUS

Take a FREE Trial and see for yourself how easy Private Planroom PLUS makes creating, controlling and managing your ITB's

Ohio's Leader in Online Reporting—Since 1994

Complimentary Set-Up & Contact Verification

Builders Exchange, Inc. sets up your database of bidders. We verify all company and contact information. Access the largest database in Ohio—build a private bid network from 65,000+ companies.

Create a Private Planroom

Use the Builders Exchange extensive database of projects for instant transfer to your private planroom or keep your job private by sending us the plans and specs. Planroom professionals will scan and catalog images at no additional cost to you. Build customized ITB lists with comprehensive scope, personal notes and details. Rate your bidders, customize your site, reports and much more.

Establish Preferred Groups

Companies that always work on certain types of projects can be selected as a group. Copy any previous bidders' list to a new project.

Identify Priority Contractors

Choose from EDGE, FBE and other minority-owned companies.

Communicate Instantly

With one click, you can send ITB's, addendum notifications, announcements, etc. as you need by e-mail, fax or both. Don't tie up your phone lines and server—all information goes through our state-of-the-art system 24/7.

Stay in Control of Your Bid Process

Track who has viewed the project, what they have looked at, and when they looked at it. The "nag" feature persuades your subs and suppliers to respond to your ITB by the date you set. This saves you precious time as the bid date approaches.

Manage Your Information

Subs and suppliers can easily access the drawings and specs at no charge to you or them—they don't even have to be a Builders Exchange member!

Your ITB gives each subcontractor a unique ID number to view project info and bid documents. They can also order copies through the Builders Exchange or print them to their printer/plotter.

Expert Customer Service

Our Private Planroom Plus Specialists will field all bidder inquiries. GC's using Private Planroom Plus, have found that sending all ITB's to companies with a free, valid e-mail address keeps their distribution costs down, increases response and reduces response time.

Ohio's leading contractors subscribe to Private Planroom PLUS, the exclusive service of Builders Exchange, Inc., for sophisticated project management and bid delivery.

These "Power User" contractors have learned to put the Builders Exchange's 130 years of industry reporting experience to use—making the most of their trusted relationships.

Working smarter allows them to increase bid response, save time, complete more projects and earn higher profits.
