WORKERS COMPENSATION GROUP PROGRAM

Control your costs! Lower your premium!

Group Rating enables state-funded employers to combine claim expenses and rate calculations to advantage of premium savings currently reserved for larger employers. Group Rating discounts typically range between 15 percent and the maximum discount available from BWC, which is currently 53 percent for private employers and 59 percent for public employers.

Sedgwick is our program administrator and a leading third-party administrator for workers compensation in Ohio, representing nearly 65,000 employers in virtually every industry classification from large corporations to small family-owned businesses.

Free savings analysis - no obligation!

To participate, complete the Temporary Authorization to Review Information (AC-3) form to see how much your company can save through a group rating program or other BWC discount programs. To fill out the form and request a quote, please visit www.bxohio.com and click on the link on our homepage. It only takes 1 minute of your time to possibly save thousands!
